- ◆ **Authorized Reseller**
 - Dell Technologies
 - Microsoft Cloud Solutions
 - PDQ Deploy & Inventory

PAST EXPERIENCE

Website Building and Application Integration

Experienced in designing, developing, and maintaining websites for small to medium-sized business across various industries. Customized Wix, WordPress, and other platforms to meet client-specific needs.

IT Service Management

Configured the interface for an End-User Self-Service Portal, including automation and permission settings to manage who could access and view service items and requests.

Email Security

Implemented DMARC, DKIM, and SPF protocols to enhance email security and ensure compliance with industry standards.

User Provisioning

Managed over 50 user accounts across multiple platforms, ensuring seamless access and functionality.

Device and Software Configurations

Planned, tested, and implemented software compatible with end-user devices to enhance productivity and user experience.

DIFFERENTIATORS

- ◆ **Experience in Public and Non-Governmental Sectors**

With over 10 years of experience working with local municipalities, Workforce Centers, Councils of Governments, and ISDs, we understand the unique challenges these organizations face.
- ◆ **Tailored Approach**

We design IT solutions specifically tailored to the needs of the businesses, rather than offering generic, one-size-fits-all services.
- ◆ **Operational Efficiency**

We specialize in compatibility between software, devices, and networks, minimizing disruptions, and improving operational efficiency.
- ◆ **Building Relationships**

We prioritize building trust, communicating transparency, and aligning your work with client goals.
